

GRUNDEIS

GRUNDEIS drown with multilayered guitars in a melancholic abyss driven by pulsating beats and haunting vocals. Without hesitation they merge elements from different genres to fragile but intense post-punk. They seem to either collapse from melancholy or be on the edge of a raging burst.

They opened shows for Bleib Modern, Isolated Youth, Suir, Jaguwar and Ezra Furman (among others).

In 2020 they finished recording their first set of songs. The second single VAIN is a wistful and mesmerizing post-punk song about someone being overwhelmed by painful memories and who is somehow trapped in them. It will be self-released on the 12th of March 2021.

Members of the band are Laura (vocals, guitar, Nils (guitar) and Tomas (drums, synths). They found each other in Hamburg in 2018.
